

Project Design Phase-I
Proposed Solution Template

Date	19 September 2022
Team ID	PNT2022TMID34035
Project Name	Project - Smart farmer
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	A problem statement is a concise description of an issue to be addressed or a condition to be improved upon.
2.	Idea / Solution description	If we take the simplest definition of an ideal solution, then it is described as a homogeneous solution where the interaction between molecules of components is exactly the same to the interactions between the molecules of each component itself.
3.	Novelty / Uniqueness	Novelty is a synonym of uniqueness. As nouns the difference between novelty and uniqueness is that novelty is the state of being new or novel; newness while uniqueness is the state or quality of being unique or one-of-a-kind.
4.	Social Impact / Customer Satisfaction	The impact of corporate social responsibility on customer loyalty: The mediating role of corporate reputation, customer satisfaction, and trust
5.	Business Model (Revenue Model)	A business starts with an idea of how to generate value for a customer. So, if it's a person looking for a table, we can produce a table, market it, ship it, receive payment for it and, that's our business model.
6.	Scalability of the Solution	Scalability is an aspect or rather a functional quality of a system, software or solution. A system that can accommodate expansion without hampering the existing workflow and ensure an increase in the output or efficiency of the process, is a scalable system.
